

2020 –

What a year it's been!

Through it all, our staff has been here every day, working hard, doing their best to make sure the Village Market experience remains as “normal” and pleasant as possible. As a token of our appreciation to our employees, we will be **CLOSED** on Thanksgiving Day, so that they can have a day of rest, and enjoy some well-deserved time with their families. Please plan ahead.

During the busy holiday season, we will continue to do everything we can to ensure the safety of our customers and employees, but we need your help. We encourage everyone to shop early this year, as much as possible. So far, we aren't seeing any issues with inventory, but as peak demand increases over the next few weeks, things could change. We expect the store to be more crowded, so being organized and prepared with a list can help get through the store more quickly. When possible, please try to only send one person per household into the store. We're all in this together, and we ask for everyone's patience and understanding during these uncertain times.

Please stop by or call the Meat Department (203-762-7202) to order your turkey in advance. Turkeys will be available for pick-up starting Saturday, 11/21 afternoon. All catering orders must be placed by noon on Saturday, 11/21. This year, due to health code restrictions, we are not able to prepare any meals in your dishes. Please visit our website for our Holiday Catering Menu.

Despite the difficulties of this year, let's all do our best to remember how much we as a community have to be thankful for. We wish everyone health and happiness during this holiday season.

Stay safe,

Mike & Tim
